

A  
Presentation  
on  
'How to run DigiDisc  
Software'

Download the software '**DigiDisc**' from our website '[digidisc.in](http://digidisc.in)'.

- As this software is available for different platforms, so please check the compatibility of the software before download.
- After downloading the software, install it.

After installation, you will see an icon of **Digidisc** software on your desktop.

You will see a screen like this one.

The screenshot displays the DigiDisc web application interface. At the top left is the DigiDisc logo. The top navigation bar includes a 'Library' menu icon and text, and an 'ADD NEW' button with a plus sign icon. A dark blue sidebar on the left contains 'Library', 'Check for Updates', and 'About' options. The main content area features a yellow callout box with the text: 'As your DigiDisc library is empty, so click on **'Add New'** button to download your first digital disc.' Below this, a message states: 'No discs are available to show in the library. Please click the 'Add new' button to download a disc.' A red arrow points from the callout box to the 'ADD NEW' button. Social media icons for Twitter, Facebook, and LinkedIn are visible in the bottom left corner.
